Heavy Equipment Orders (LTL)

API will contact you with the exact freight charges for large equipment purchases.
(e.g. Exam Chairs, Cabinets, etc.)

Warranty Information

All products in this catalog are guaranteed against defects and will be repaired or replaced at our discretion. Warranty is void if misused or poorly maintained.

Minimum Order Charge

A small handling fee of \$10.00 applies to orders totaling less than \$50.00.

Payment Method

American Express, Discover, MasterCard and Visa.

Please provide your credit card number, CVC, expiration date, and the cardholder's name.

Pricing Information

API works to maintain consistent pricing; however, unforeseen manufacturer price increases may require adjustments without notice. Please call or visit our website for the most accurate pricing.

About this Catalog

All information, images, and measurements are as accurate as possible. Handcrafted instruments and metric conversions may cause slight variations without affecting performance. API reserves the right to ship the most modern pattern of an instrument or product.

Return Goods Policy

1. A Return Merchandise Authorization (RMA#) must be obtained before returning goods. Please call **800-428-1610** for your RMA Number. **GOODS RETURNED WITHOUT AUTHORIZATION WILL BE REFUSED!**
2. No goods may be returned for credit more than **10 calendar days** after the receipt of order.
3. RMA# must be on the outside of any package(s) being returned. RAM# indicates authorization to return product(s) for evaluation only and does not imply credit, exchange, etc. **RMA# expires 10 days from issue date.**
4. **ALL SALES FINAL ON THE FOLLOWING ITEMS:** special order, sterile packaged, modified/alterd items, items that have been cleaned or autoclaved, compression garments, bulbs, batteries, soft goods, and skin care products. These items cannot be returned for any reason.
5. **ALL RETURNS** will be **SUBJECT** to a **RESTOCK CHARGE** of **25%**, unless the item(s) was shipped in error.
6. All goods returned must have the original packaging. If original packaging is missing, goods are subject to a repacking fee.
7. The customer is responsible for wrapping, packing and insuring the item(s) being returned to protect from damage during shipping.
8. All merchandise should be insured and shipped via UPS or FedEx; we **DO NOT** recommend returning products through the U.S. Mail.
9. All freight charges must be paid by the purchaser when returning goods, both to and from API/Gio Pelle.
10. If shortages/damages occur, you have **48 hours to make a claim.** In this event, take photos to document the incident. Do not discard packing materials.
11. All items sent in for evaluation/repair must be disinfected or autoclaved before returning. Evaluations that are approved for repair must be paid in advance. Please call for the Evaluation/Repair Form prior to sending any product(s) to us.

Cavitor Ultrasonic Cleaners

Ultrasonic cleaners utilize acoustic vibrations at a high frequency through a liquid medium to form millions of microscopic bubble that dislodge foreign matter from surfaces, blind holes, pores, tight joints and places not reached by long time soaking or scrubbing. Can be used safely on any stainless steel instrument.

- Penetrates every nook to dislodge dirt and debris
- Preclean instruments for sterilization in minutes
- So gentle it will not etch glass
- Prolongs the useful life of surgical instruments
- Adjustable digital timer from 0 to 30 minutes
- Drainage ball valve
- Temperature ranges from 60° - 176° F (20° - 80° C)
- Includes cleaning basket and cover
- 1 year limited warranty

GIO LIGHTS

LED Exam Lights

\$2,190.00 per light

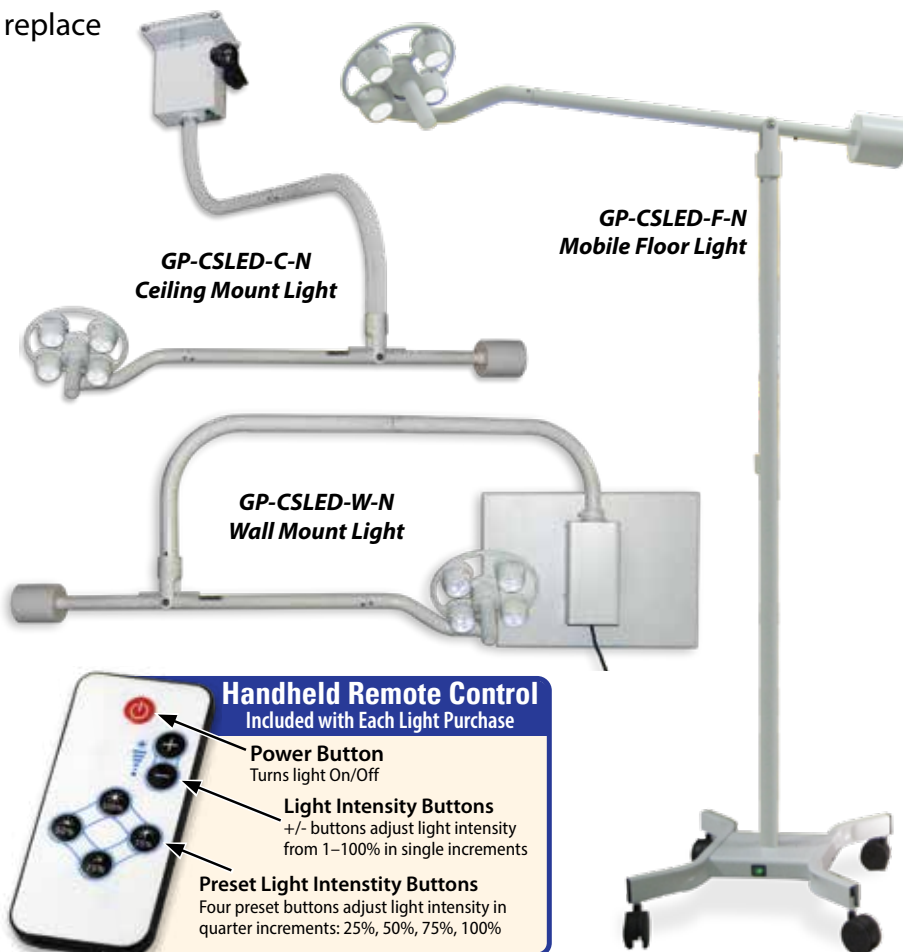

(List Price: \$2,690.00 per light)

Exam lights must be purchased through our sister company, Gio Pelle Skin Care. Visit giopelle.com or call 1-800-428-1610 and select "Gio Pelle" when prompted.

WARNING

Customer is responsible for light installation, which should be performed by a professional contractor or qualified maintenance staff.

Mounting schematics for Ceiling and Wall Mount Lights available for review and planning at giopelle.com/gio-lights-manuals

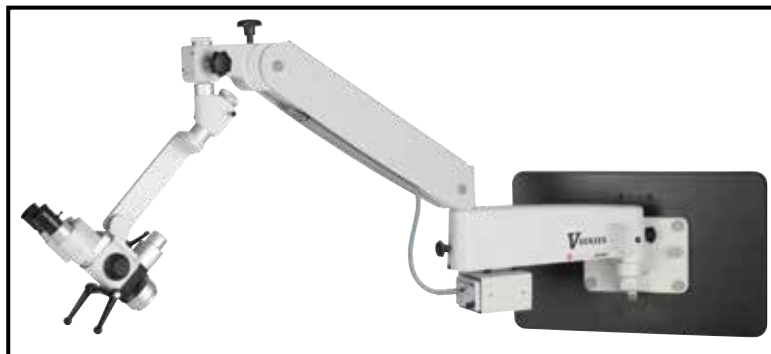

Floor Stand Microscope (Item No. JM-71-2603)

Mobile floor stand microscopes are ideal for the practice which has occasional need to move the microscope to an alternative exam room. The steady compact stand is supported by large rubber casters with positive locks. The multi-articulating suspension arm provides a stable delivery of the optical base to the field. Use of this mobile stand system eliminates the cost of wall or ceiling preparation.

**MADE
IN
GERMANY**

Wall Mount Microscope (Item No. JM-71-2601)

Wall mount applications are ideal for exam rooms with limited space. The microscope typically is mounted on the wall behind the patient chair. A long multi-articulating suspension arm provides stable delivery of the optical base to the field. When not in use, the arm conveniently folds flat against the wall for unobstructed storage. Also available in ceiling mount.

Price: \$13,500.00 ea.

Floor/Wall Microscope Features

- V Series system for unparalleled contrast, clarity, and shadow reduction
- Three magnification stage magnification changer
- Straight binocular F-125mm with precision pupillary distance fine adjustment
- High eyepoint eyepieces 10.0X with diopter adjustments and locks
- Fine focusing objective lens F-250mm (others available)
- Dual articulating adjustable handle for easy movement
- Adjustable spring assisted suspension arm with lock
- 2 year limited warranty

ALL-CAM2 HD Video Camera

Utilizes a continuous 1080P 60FPS HD Video Sensor. The real-time image output and all capturing is full 16:9 high definition. All controls are conveniently located and executed at the touch of a button. Still images and video recordings are captured directly to USB drive. All files are Hi-Def digital and can be easily transferred via USB drive as JPEG and MP4.

Connections for HDMI, USB, and power are easily accessed on the back of the device. An added benefit is the single side port beam splitter which could be used for attaching an observer tube.

Price: \$21,800.00

Phenol Applicators

Apdyne Phenol Applicator Kit (Item No: AP-PH15-06)

Use the Apdyne Phenol Applicator Kit to anesthetize the tympanic membrane during myringotomy procedures.

- Provides a fresh unit of phenol and new applicator for each procedure
- Conveniently dispose of product after use
- Applicator eliminates patient discomfort associated with local infiltration
- Unique foam tip applies the proper dosage of phenol to the incision site for immediate anesthesia
- Immediate anesthesia enables quick and easy procedures with reliable results
- Facilitates fast in-office treatment of patients
- 6 units per box
- Single-use, non-sterile

Sale: \$189.00/bx

via UPS Ground or Air

PhenolPro™ Safety Applicator (Item No: AP-PH-1000)

The PhenolPro™ Safety Applicator is designed to simply, quickly and safely apply phenol. Double-barrier vial containing 0.27ml of phenol integrated into the handle. Squeezing the handle breaks the ampoule and starts the flow, delivering phenol to the tip and reducing exposure to the patient, physician, and staff.

- All-in-one, self-contained
- The applicator comes in a pouch
- Break ampoule to use
- Clear view of the ear canal during use
- Safe to store, transport and dispose
- 10 units per box
- Single-use, non-sterile

Fiber-optic Endoscopes

Ergo-Flex Nasopharyngoscope (Item No. JM-FLEX-3.4)

- Sleek design with smooth operation and ergonomic controls
- Insertion bundle control lever wraps snugly around the scope body, creating a compact, ergonomic design for both hands
- High-resolution bundle delivers crystal-clear images
- Shock resistance bladder-sealed body allows full immersion
- Includes three light port adapters: Storz (removable), Wolf (removable), and ACMI (fixed)
- Impact absorbing foam lined storage case protects endoscope, adapters and leak tester
- 1 year manufacturer warranty

Sale: \$346.00 (reg. \$ 635.00)

Freer Nasal Knife

- Designed for cutting through cartilage and mucosa during septoplasty procedures
- "D" shaped blade
- Flat handle

Item No.	Length	Blade Width
66-52-10E.....	6 ¹ / ₄ ".....	5mm x 8mm

Sale: \$80.00 (reg. \$ 137.00)

Cottle Tenaculum Nasal Hook

- Single angled prong with tapered sharp point
- Flat non-roll handle

Item No.	Length	Width
A20-40-16.....	5 ¹ / ₂ ".....	4mm

Sale: \$48.00 (reg. \$68.00)

Gunter Nasal Hook

- Curved, single prong with tapered sharp point
- Flat non-roll handle

Item No.	Length	Width
A20-49-40.....	5 ³ / ₄ ".....	4mm

Sale: \$56.00 (reg. \$79.00)

Nasal Elevators, Nasal Retractors, Measuring Devices

Boies Nasal Fracture Elevator

- Used to align nasal bone fragments
- Blunt, oval blade

Item No.	Description	Blade Width
67-15-70E.....	7 1/2", straight	9mm

Sale: \$75.00 (reg. \$ 179.00)

Griffin Fracture Elevator

- Used for reduction of nasal fractures
- 60° angled handle for better manipulation
- Ergonomic handle reduces fatigue

Item No.	Description	Blade Width
67-15-76E.....	5 1/2", smooth	9.5mm

Sale: \$86.00 (reg. \$ 101.00)

Anderson Double-ended Retractor

- One end features a 14mm saddle style blade
- Opposite end has 12mm double-ball prong hooks

Item No.	Description
66-52-16	7 1/4", double-ended

Sale: \$90.00 (reg. \$ 127.00)

Jameson Goniometer

- Designed for accurate measuring during rhinoplasty procedures
- Measures range from 30°-120°
- Graduation in centimeters (14.5cm) and inches (5 11/16")

Item No.	Description
44-38-30E.....	5 3/4" overall length

Price: \$68.00

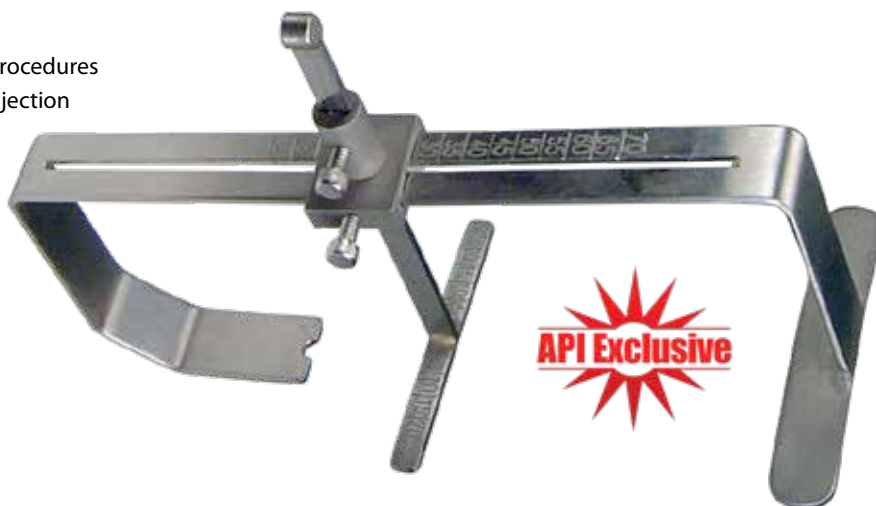

Projectometer

- Designed for accurate measuring during rhinoplasty procedures
- Obtains preoperative baseline measurement of tip projection
- Tension screws adjust height and depth of rulers
- Depth adjustable up to 5-50mm

Item No.	Description
AP-PGT	6" overall length

Sale: \$205.00 (reg. \$ 321.00)

Now You Can

Breathe Clearly

After Any Nasal or Sinus Surgery

REL Tok is Now Owned by

api

anthony products, inc.

Anthony Products completed the acquisition of the REL TOK/KOTLER brand and products in June 2025

REL TOK CLEAR-FLO™ NASAL AIRWAY SYSTEM

Introducing a major advancement in post-operative care for rhinoplasty, nasal & sinus procedures that offers a unique airway device for improved breathing & comfort for patients along with a compatible septal splint for structural support.

A Patented, FDA-cleared Airway Safety Device

A New Standard of Care for All Nasal and Sinus Surgeries

• Better Patient Care

- Allows patients to breathe immediately through the nose whether packed or unpacked following nasal and sinus surgeries
- Aids in preventing blocked nasal passages, ear popping, claustrophobia, and anxiety during recovery
- Topical anesthetic administered into nose makes removal in office, simple, quick and painless

• Increases Revenue

- For inserting the Reltok Clear-Flo™ Nasal Airway, the surgeon's payment increased by 36%
- Surgeons are receiving additional payments, by insurers, including Medicare, for the additional service of inserting the Reltok Clear-Flo™ Nasal Airway

Take the API Reltok Challenge!

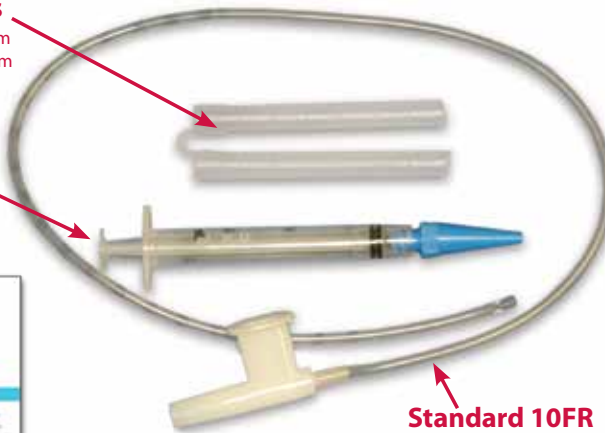

1. Purchase one Reltok Clear-Flo™ Nasal Airway 5 Pack (Item No. REL TOK-CFNA-5).
2. Our Insurance Billing & Coding consultant will guide you through the reimbursement process for your first 3 cases. This is at **NO CHARGE**, courtesy of Anthony Products.
3. If your patients are not happy, and if you are not pleased – for any reason – return the unused kits and **receive a 100% refund for your purchase**.

CONTENTS OF NASAL AIRWAY SYSTEMS

Clear-Flo™ Nasal Tubes

Inner Diameter: 5mm
Outer Diameter: 7mm

3cc Luer-Lok™ Syringe

Standard 10FR
Suction Catheter

Two Sets of Instructions
(one for physician, one for patient home care)

Each kit Includes the following items:

- One-piece, Dual Tube Clear-Flo Nasal Airway™
- 10Fr Suction Catheter
- One set of Ultra-Smooth Septal Splints™
- Illustrated Instructions (for physician insertion)
- A 3cc Luer-Lok™ syringe with adapter tip (for post-operative home irrigation)
- Illustrated instructions (for patient home care)

Exclusive to RELTOK Clear-Flo Nasal Airway™

**One set of
Reltok Ultra-Smooth
Septal Splints™**

Airway & septal splints are
packaged together in a sterile kit

AP-SP-79300-50	With Airway	50/bx	\$1,804.00
AP-SP-79200-B	With Airway (non-sterile)	50/bx	\$1,211.00
AP-SP-79400	Without Airway	1 pair	\$52.00

Patent pending

Nasal Drip Pad (Item No. AP-BNDP-5)

- Tape-free
- Disposable/single use
- Easy to use
- Convenient
- Highly absorbent
- No sensitivity
- Ideal for nosebleeds and runny noses
- One size fits most
- Cost effective—no need to buy tape and gauze separately

1 Bag of 5 Nasal Drip Pads: \$26.00 per bag. (reg. \$30.00 per bag)

1 Case - 20 bags/5 per bag: \$289.00 per case (Item No. AP-BNDP-5-CASE)

Nasal & Sinus Packs

All of our nasal and sinus packs utilize three-dimensional interconnected open cells that are soft and pliable for epistaxis management.

Additional Features of all Nasal & Sinus Packs:

- Even and fast expansion with rapid wicking properties
- Soft, lint and fiber free
- Constructed from sterile polyvinyl alcohol (PVA) foam
- String attached for retention and easy removal
- Sterile, single use

AbsorbENT® Nasal Packs

- Gentle, but firm mucosal compression on the tamponade of anterior or middle segment epistaxis
- When in contact with moisture, foam absorbs and swells to six times its compressed diameter
- Encased angled airway tube to aid in patient breathing
- Optional anatomical shape contoured to conform to the nasal cavity

A Flexible, Translucent, Vulcanized Silicone Elastomer Material for Implant, Surgical Repair and Laboratory Uses

Features

- A flexible silicone elastomer material designed for general medical and laboratory applications
- Available in several thicknesses of three product types, differing in their flexibility and strength
- High degree of chemical inertness and bio compatibility
- Easy to cut to size and shape
- Reinforced silicone sheeting minimizes stretching and allows suture attachment
- Easy removal with minimal trauma
- High permeability to gases
- Autoclavable without significant changes in physical properties

Applications

- Emergency surgical repair of trauma injuries
- Abdominal wall closures
- Surgical repair of fractured orbital floors, nasal septums, perforated ear drums, and urethral strictures
- Research laboratories
- Cell growth
- Scar healing

Packaging

- A single silicone sheet is sandwiched between clean room grade polyethylene sheets to facilitate handling and cleanliness
- Packaged in a resealable poly bag that can hold unused portion
- Supplied non-sterile

Hemolysis, percent	<1

3 Days	Trauma Free
10 Days	Trauma Free
90 Days	Trauma Free
Cell Tissue Growth	No Cytopathic Effects

Biocompatibility

Biocompatibility tests, which meet or exceed USP Class VI Plastics tests, have been performed on the elastomers from which this medical grade silicone sheeting is produced. Every production lot of elastomer is tested for levels of trace metals and for absence of cytopathic effects using a tissue culture test. Results are based on a comparison with defined USP negative controls.

Silicone sheeting has been utilized in a wide variety of scheduled and emergency surgical repairs. The purchaser should thoroughly test products made in part or otherwise incorporating Anthony Products Medical Grade Silicone Sheeting to determine the acceptability of the products in a specific application.

Sterilization

Wrap in a non-linting material or place in a clean, open tray. Autoclave by one of the following methods:

- **High speed (flash) sterilizer** — 10 minutes at 270° F and 30 psi
- **Standard gravity sterilizer** — 30 minutes at 250° F and 15 psi

NOTE: Sterilization by ethylene oxide (ETO) is not recommended unless sufficient data is available regarding the time required for complete out gassing of residual ethylene oxide and other ETO by product from the specific system employed

Silicone Sheeting, Silicone Blocks

Silicone Sheeting (continued from page 45)

Medical Implant Grade Silicone Blocks

- A flexible vulcanized silicone elastomer material designed for implant to augment bone and cartilaginous tissue loss
- Useful for customizing surgical implants for trauma injuries, implanting to augment cartilage or damaged bone, and for chin and malar prostheses
- Allows physician to create custom implant configurations
- Four degrees of firmness including very soft, soft, medium and firm durometers
- Convenient storage of unused portion in resealable poly bag
- Easy to cut to size and shape
- Will not attach to underlying or surrounding tissue
- Easy explantation with minimal trauma
- FDA approved for implant use
- Color: Non-pigmented (Clear)
- May be repeatedly autoclaved
- Dimensions: 15cm x 7.5cm x 1.5cm

May be autoclaved multiple times however implanted only once.

Item No.	Description	Durometer	List	Sale
BL-30001-010	Very Soft Silicone Block	10	\$900.00	\$810.00
BL-30001-020	Soft Silicone Block	20	\$900.00	\$810.00

BL-30001-050	Firm Silicone Block	40-50	\$900.00	\$810.00

Silicone Durometer Hardness Scale

Durometer measures the hardness of rubber, plastic, silicone, and other non-metal materials using the Shore A Scale.

Note: Hardness ratings have a tolerance of + or - 5 points

Non-Implant Silicone Surgical Cutting Block (Item No. BL-31001-035P)

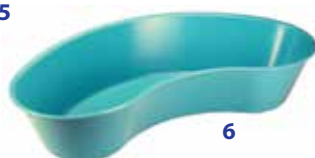

- Useful for medical testing, dissections, and general test applications.
- Easy to cut to required size and shape using scalpel or knife
- Allows technicians or medical professionals to conduct tests
- Convenient storage of pad in resealable poly bag
- Provided in a medium durometer (hardness)
- Color: Blue Tint
- Dimensions: 4" x 3" x 0.5"
- Non-sterile
- Single use

Single Use
We do not recommend reusing this product upon re-sterilization after it has been contaminated

AP-SSGP-B

Costal Cartilage Graft (Item No. AP-WCC)

- Increase accuracy and reduce carving time required for using costal cartilage tissue in head and neck reconstruction
- Secures the costal cartilage and a double-bladed device to cut the rib graft through a central cross-section
- Obtain slices 0.8, 2.1, and 4.1 mm in thickness, with lengths up to 4.0cm and a width of 1.0cm
- The absolute difference between the largest and smallest thickness measured for each individual sample ranged from 0.04 to 0.13mm, 0.06 to 0.14mm, and 0.10 to 0.21mm for the 0.8-, 2.1-, and 4.1-mm-thick groups, respectively

Replacement Blades (Item No. AP-WCC-B)

- 2 per pkg. (1 pair)
- Stainless steel
- Single use

Sale: \$65.00
(Reg. \$79.00)

Sale: \$937.00
(Reg. \$1,017.00)

Brow Lift Drill Guide (Item No. AP-EFBD)

- Accurately create suture holes for brow lift procedures
- Built-in stoppers ensures correct drilling depth
- Sharp nubs on bottom secures drill guide to scalp while drilling
- Easy-to-grip knurled handle
- Includes two 1.8mm drill bits

Sale: \$199.00 (Reg. \$249.00)

NEED A SPECIAL FIBER-OPTIC INSTRUMENT?

Anthony Products can custom design fiber-optic instruments to your specifications, including coating instruments for electrosurgical use.

Please call 1-800-428-1610 for more information.

Additional charges apply for any special order fiber-optic instrument and are non-returnable. Electrosurgical coated fiber-optic instrument lead time is 6 to 8 weeks.

Visit anthonyproducts.com or call for additional styles and sizes

Product Specifications

OUTPUT POWER

- To 40 watts (0-10 watts in 1/10th watt increments on both monopolar and bipolar)

OUTPUT FREQUENCY

- 328-492kHz

LINE VOLTAGE

- 100-240 VAC

LINE FREQUENCY

- 50 - 60 HZ

WARRANTY

- 4 Years

Dimensions

- Height: 7.4" • Width 8.98" • Depth 4.13" • Weight <5lbs

Included with Purchase

- A902 – 3 Button Power Control Handpiece (Qty: 1 ea.)
- A804 – Non-Sterile Sharp Dermal Tips (Qty: 5 ea.)
- A805 – Sterile Sharp Dermal Tips (Qty: 2 ea.)
- A806 – Non-Sterile Blunt Dermal Tips (Qty: 5 ea.)
- A807 – Sterile Blunt Dermal Tips (Qty: 2 ea.)
- A806DE – Non-Sterile DERM-Elite™ Premium Blunt Dermal Tip (Qty: 2 ea.)
- A807DE – Sterile DERM-Elite™ Premium Blunt Dermal Tip (Qty: 2 ea.)
- A910 – Non-Sterile Disposable Handpiece Sheath (Qty: 2 ea.)
- A910ST – Sterile Disposable Handpiece Sheath (Qty: 2 ea.)
- A837 – Wall Mount Kit (Qty: 1 ea.)
- Medical-Grade Power Cords (Qty: 1 ea. 110 VAC & 220 VAC)
- MC-55-239-001 – User's Guide (CD Format)

Bovie® Derm 942 High Frequency Desiccator (Item No. ES-A942)

- Designed and engineered to be the most reliable and durable desiccator available today
- Unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat
- Post-procedure and long-term cleanup are simplified by its non-absorbing, non-staining, high impact plastic case
- 40 watts of power
- Increase and decrease in 1/10th watt increments from 0 -10 watts
- Digital Error Detection continuously monitors every aspect of the unit's output and instantly disables the output and displays the appropriate error code at the first sign of any problem
- The Bovie DERM 942 is a ground reference unit which means no grounding pad is required
- Less to do and less to buy makes this the most cost effective and user friendly unit on the market
- 4 Year Warranty (Dissicator unit only)

Price: \$1,286.00 (reg. \$1,543.00)

Compatible with ES1391E

Sale: \$47.00 (reg. \$134.00)

Electrosurgical Terminology

Electrosurgery utilizes the heating effect of high-frequency current passing through tissue to fulgurate, desiccate, coagulate or cut.

Below are some brief descriptions of these terms.

- **Fulguration** – A technique used for superficial dehydration or coagulation of tissue. The electrode is held a short distance away and sparks to jump to the tissue.
- **Desiccation** – A technique used for superficial dehydration and deliberate destruction of tissue. The electrode is placed in contact with tissue and left there to dehydrate the tissue.
- **Coagulation** – This is the sealing of small blood vessels. The electrode is left in contact with tissue for a period of time until a deep white coagulum is formed.
- **Cutting** – The rapid volatilization of cell tissue caused by a high intensity arc generated between the electrode and tissue.

Standard "Banana Plug"

(Item No. ES960A)

- Connects disposable, foot-activated instruments to electrosurgical generators
- Monopolar
- 4mm plug
- Accepts 1/8" crimped wire
- Reusable

COMPATIBLE GENERATORS

Acmitron • Birtcher Blendtome • Bovie "Specialist" • Ellman
Malis Martin • Wolf • Most European ES Units

Price: \$126.00 (reg. \$136.00)

Required for Suction Cauteries & Disposable Pens

Suction Coagulators, Adenoid Curette, Suction Catheter

Bovie Suction Coagulators

- Compatible with most generator models including Bovie and Aaron
- 6" flexible shaft, 3m cable length
- 8, 10 or 12 French diameters
- Choose from foot or hand activated suction coagulators
- Allows suction with or without simultaneous coagulations
- Single use/individually packaged sterile

Electrosurgery Pencils, Bipolar Turbinate Probes

Reusable Electrosurgery Pencil

(Item No. ES-ESPR)

- Validated to 50 autoclave cycles
- Button switch activation
- Standard 3-prong connector with 10ft. attached cable
- Accepts standard 3/32" shaft electrodes (sold separately)
- Supplied non-sterile
- 1 per box

COMPATIBLE GENERATORS

3M-600 • Aspen Labs • Birtcher • Bovie • Cameron Miller • Concept
Conmed • EMS/Bard • Ellman • Erbe • Eschmann • Martin • Neomed
Valleylab • Generators that utilize standard 3-terminal receiver

Price: \$68.00 ea.

*Note: Hand activated generator required
(sold separately)*

Disposable Electrosurgery Pencil

(Item No. ES-ESP6)

- Rocker switch activation
- Standard 3-prong connector with 10ft. attached cable
- Accepts standard 3/32" shaft electrodes
- One blade electrode included with purchase
- 50 per box, packaged individually, sterile

COMPATIBLE GENERATORS

3M-600 • Aspen Labs • Birtcher • Bovie • Cameron Miller • Concept
Conmed • EMS/Bard • Ellman • Erbe • Eschmann • Martin • Neomed
Valleylab • Generators that utilize standard 3-terminal receiver

Sale: \$440.00/bx

(reg. \$650.00/bx)
50 per box

*Note: Hand activated generator required
(sold separately)*

Reusable Monopolar Cord & Handle

(Item No. ES1786E)

- A long-life reusable monopolar handle with 9ft. attached cable
- Accepts standard 3/32" shaft electrodes
- One blade electrode included with purchase
- Standard banana plug
- Supplied non-sterile
- 1 per package

COMPATIBLE GENERATORS

Any foot-activated monopolar generator with a banana plug receptacle

Sale: \$92.00 ea.

(reg. \$95.00 ea.)

*Note: Footswitch required
(sold separately)*

Reusable Bipolar Turbinate Probes

- Designed for bipolar submucosal coagulation
- Two 5cm needles spaced 3mm apart
- Each probe includes one ES870E bipolar cable

Congratulations Todd!

Congratulations to Anthony Products'
President, Todd Petrucciani, on celebrating
40 years with the company.

Todd's dedication and leadership have shaped our
organization and inspired our entire team
since November 1985.

We're grateful for his passion, perseverance, and the
countless contributions that have helped build the
strong foundation we stand on today.
